7. Documentation for Your CE Application

Upon successful completion of the training, participants receive a Certificate of Completion that can be submitted as supporting documentation for a continuing education credit application.

Depending on the requirements of your professional association or regulatory college, you may also need to provide:

- The course description and learning objectives.
- The detailed course outline.
- The total instructional hours.
- Evidence of successful completion and assessment.
- Instructor qualifications and credentials.
- Any additional forms or documentation required by your professional body.

Important: Continuing education credit approval and the number of credits awarded are determined by the relevant professional association or regulatory college. Completion of this course does not, by itself, guarantee approval or a specific number of credits.

We recommend confirming your professional body's requirements before submitting your application.
